

LIQUID
SHADE

Portable Misting Station

Helps prevent heat related injury and dehydration

Lowers temperature up to 30°

Refreshes and energizes

Reduce heat and refresh instantly!

What does Liquid Shade do?

- Creates an instant cooling sensation
- Transforms blistering outdoor heat into a more comfortable environment
- Provides outdoor air conditioning
- Creates a chilling breeze affect
- Provides hours of comfort and a temporary drop in temperature.
- Reduces the temperature in the immediate area by as much as 30 degrees!
- Cools and refreshes 1-8 people

Misting technology is based on the principle of evaporative cooling and the transfer of water molecules to create a cooling affect.

Liquid Shade provides safety and comfort:

- Prevent dehydration & heat stroke and other heat related injuries
- Cooler atmosphere will increase the comfort and pleasure of everyone
- Turns your hot patio into a comfortable oasis
- Heat is not only uncomfortable, but extremely dangerous too--leading to heat-related illnesses like heat stroke, dehydration and even death.
- Air conditioners can protect you while in your home, but you're at the mercy of the weather once you step outside.
- Enjoy a cooler surrounding in the backyard, beach, picnic, sporting events, parties, and most areas even in the hottest temperatures

Liquid Shade for Camping and Boating.

Liquid Shade is ideal for cooling outdoor areas when it gets hot.

The ultra-fine mist covers an 8-10 foot radius to create an instant cooling sensation. The rechargeable battery lasts 8-10 hours on each charge. The water tank is easily refilled with regular tap water and lasts for 1 full hour of misting per tank.

Outdoor uses for Liquid Shade:

- Boating and boat docs
- Camping and RV's
- Picnics and celebrations
- Festivals and events
- Almost any outdoor area can benefit from Liquid Shade's cool mist!

Liquid Shade for Home.

Liquid Shade makes home outdoor areas comfortable.

Liquid Shade is wonderful for home use as it cools off your backyard and patio on hot days. Everyone enjoys being outdoors but when the temperature rises the outdoors can get too hot and uncomfortable. Liquid Shade's cooling mist covers approximately a 8-10 ft radius and creates an instant cooling sensation. And because Liquid Shade is portable, with its heavy-duty wheels and pull handle, you can easily roll it to any area of your yard.

Liquid Shade's ultra-fine mist is perfect for:

- Barbeques
- Parties and entertaining
- Relaxing on a lounge or by the pool
- Make the summer months much more enjoyable
- Increase the comfort and pleasure of your outdoor environment

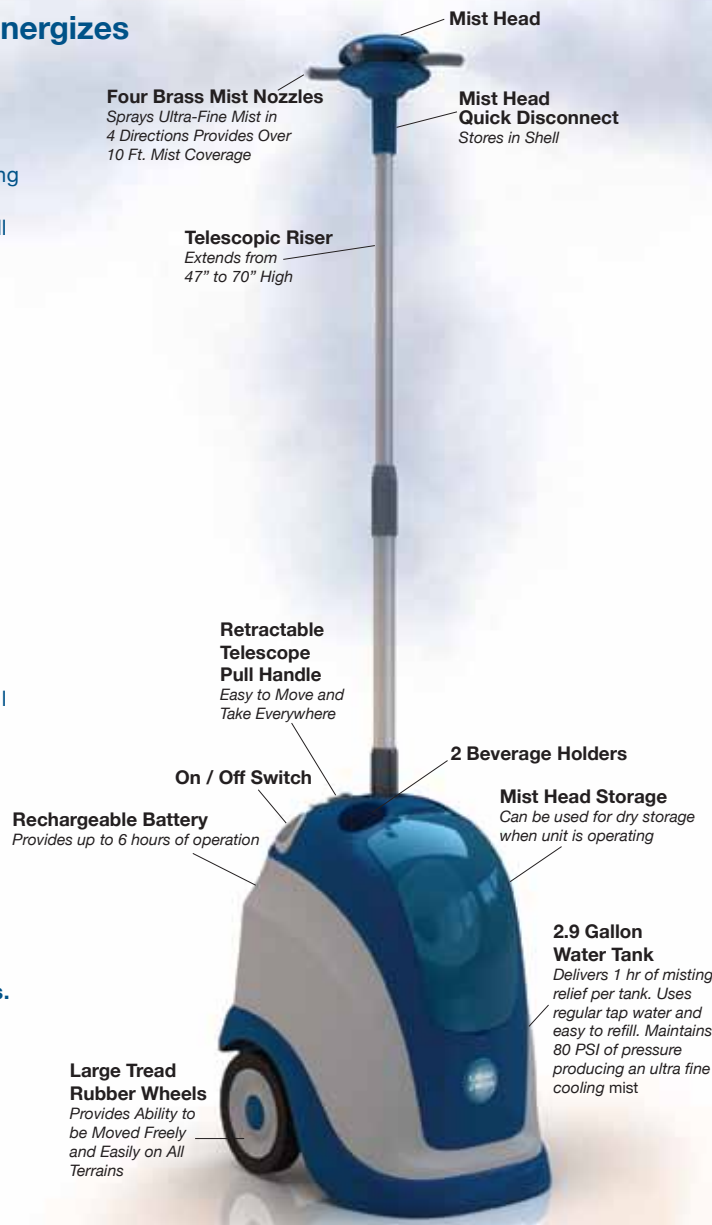

Liquid Shade for Sports.

Liquid Shade can improve team performance in all types of sports.

- When players feel better, they're able to play better
- Player performance drops when the weather gets too intense
- With their minds off of the heat, players are able to focus on more important things--like their strategy to win
- Heat related injury and dehydration are dangerous for young athletes, and Liquid Shade provides instant relief

Patent Pending

Liquid Shade Portable Misting Station is intended to help relieve heat related discomfort and helps prevent heat related injury and dehydration by cooling the air around the unit and by creating a cooling affect when the mist touches your skin. Liquid Shade does not provide protection from the sun and the damage the sun can cause. General precautions and the use of sunscreen are recommended. Liquid Shade, Inc. is not liable for any direct or indirect claim, loss or damage resulting from use of the Liquid Shade misting products. Liquid Shade is not intended to replace the services of a physician and is not a substitute for professional medical advice and treatment. You should consult a physician in all matters relating to your health.
